DIFFERENTIATORS

1. **Founder-led execution** — senior, hands-on leadership with 20+ years of IT and cybersecurity experience on every engagement.
2. **Right-sized solutions** — recommendations scaled to your risk profile, team, and budget, with no unnecessary overhead.
3. **Certified bench strength** — team credentials include CISSP, GSLC, GSTRT, GCIH, GPEN, GSEC, and GISF.
4. **Enterprise depth, small-business agility** — high-quality, enterprise-grade delivery and a nationwide footprint, with direct access to decision-makers.

REPRESENTATIVE EXPERIENCE

- Enterprise cybersecurity and technology consulting for commercial clients across a wide range of sectors.
- Managed IT for growing businesses, including a global firm with a distributed workforce: help desk, Microsoft 365, cloud and security.
- Resiliency program for a large colocation provider: security risk management, governance and business continuity.
- Regulatory compliance support for startups and non-profits.
- IT operations delivery, cybersecurity program management, risk management, and compliance support for large government agencies.
